

Advantage Gripware Butterfly Canopies™

Thank you for purchasing this 6'x6' Butterfly Canopy™. This Butterfly Canopy™ is manufactured from our UltraBouce fabric, which is lightweight, water resistant and opaque and has been treated with a flame-retardant for safety.

Included with your purchase:

- 1- 6'x6' Butterfly Canopy™
- 12- String Ties
- 1- Blue Rag Bag

SET UP INSTRUCTIONS

- 1] Set up any brand 6'x6' Butterfly Frame. Be sure to use two stands with sandbags at opposite ends of the frame.
- 2] Slip the elastic corners of the Butterfly Canopy™ over the corners of the Butterfly Frame, with the sides of the canopy on the inside of the frame.
- 3] Attach the string ties to the frame all the way around.
- 4] Raise the stands so that the bottom of the Butterfly Canopy™ is just touching the ground.
- 5] Place sandbags on all stands.
- 6] Pipe or batten can be used on three sides in the pipe hem provided to prevent the sides from flapping in the wind. Grommets are provided at each corner (bottom) to allow for ground stakes or ties to attach to sandbags.
- 7] The two hook & loop side vents may be opened partially or completely from the inside of the canopy for air circulation.
- 8] When opening the zippered side, a sunshade can be made by placing a C-Stand at each end with a 40" extension arm through the pipe hem, as shown below.
- 9] When striking the Butterfly Canopy™, please be absolutely certain that the canopy is dry! This fabric will mildew if folded or stored when wet or damp!
